7.2—ANNUAL OPERATING BUDGET

The Superintendent shall be responsible for the preparation of the annual operating budget for the District. The Superintendent shall present the budget to the Board for its review, modification, and approval.

The budget shall be prepared in the electronic format as prescribed by the State Board of Education and filed with the Arkansas Department of Education no later than September 30 of each year.

The approved budget shall provide for expenditures that are within anticipated revenues and reserves. The District Treasurer shall present monthly reconciliation reports and a statement on the general financial condition of the District monthly to the Board.

Any changes made to the budget shall be in accordance with District policy and state law.

7.5—PURCHASES OF COMMODITIES

Purchases shall be made in accordance with State laws and procurement procedures governing school purchases that are deemed to be in the best interest of the District and are the result of fair and open competition between qualified bidders and suppliers.

DEFINITIONS

“Commodities” are all supplies, goods, material, equipment, computers, software, machinery, facilities, personal property, and services, other than personal and professional services, purchased on behalf of the District.

“Specifications” means a technical description or other description of the physical and/or functional characteristics of a commodity.

Purchases of commodities with a purchase price of more than \$10,000.00 require prior Board approval, unless an emergency exists in which case the Superintendent may waive this requirement.

The district shall notify in writing all actual or prospective bidders, offerors, or contractors who make a written request to the district for notification of opportunities to bid. The notification shall be made in sufficient time to allow actual or prospective bidders, offerors, or contractors to submit a bid or other appropriate response.³ The board shall accept bids submitted electronically by email or fax for any and all district purchases, unless specified to be submitted by other means or methods, and except those bids which have been specified to have a designated date upon which the bids shall be opened. The superintendent shall be responsible for ensuring submitted bids, whether written, faxed, or emailed, are retained in accordance with policy 7.15—RECORD RETENTION AND DESTRUCTION.

The district will not solicit bids or otherwise contract for a sum greater than \$25,000 with vendors that are on the “excluded parties list” if the contract is to be paid from federal grant funds.¹

All purchases of commodities in which the estimated purchase price equals or exceeds ten thousand dollars (\$10,000) shall be procured by soliciting bids. Specifications shall be devised for all commodities to be bid that are specific enough to ensure uniformity of the bid and yet not so restrictive that it would prevent competitive bidding. The bid specifications shall not include the name or identity of any specific vendor. The Board reserves the right to reject all bids and to purchase the commodity by negotiating a contract. In such an instance, each responsible bidder who submitted a bid shall be notified and given a reasonable opportunity to negotiate.²

Bids shall be awarded after careful examination of the details of the bid to determine the best overall value to the District. In instances where the low bid was not accepted a statement of the reasons shall be attached to the bid. Bidders submitting written bids shall be notified in writing of the bid award.

The following commodities may be purchased without soliciting bids provided that the purchasing official determines in writing that it is not practicable to use other than the required or designated commodity or service, and a copy of this statement is attached to the purchase order:

1. Commodities in instances of an unforeseen and unavoidable emergency;
2. Commodities available only from the federal government;
3. Utility services;
4. Used equipment and machinery;³ and
5. Commodities available only from a single source.⁴

Prospective bidders, offerors, or contractors may appeal to the district's superintendent if they believe the district failed follow district bidding and purchasing policy or state law.

Any award of a contract shall be subject to revocation for ten working days or, if an appeal is received, after resolution of the appeal. This shall give prospective bidders, offerors, or contractors the opportunity to appeal the bid award if they believe the facts warrant an appeal. Any appeal shall be **in writing by certified mail** and received by the district office, "attention to the superintendent" within seven calendar days following the initial and revocable award of the contract.

If the district receives an appeal of a bid award, they shall notify, in writing, those prospective bidders, offerors, or contractors who have made a written request to the district for notification of opportunities to bid that an appeal has been submitted. The notification shall state:

- that the contract award has been halted pending resolution of the appeal and could be revoked;
- the reasons for the appeal;
- that the recipient of the letter may respond to the protested issues identified in the appeal;
- the date the decision on the appeal will be made and notification sent;
- that if the appeal is upheld, the bidding process will start all over again;
- that if the bidding is re-opened, changes will be made to the request for bids as necessary to satisfy the reasons for upholding the appeal.⁵

The sole authority to resolve any appeal made relating to this policy shall rest with the superintendent. The superintendent's decision shall be final and conclusive. In the event the district upholds an appeal, the sole responsibility of the district to the aggrieved bidder(s) shall be the re-opening of the bidding process.

Notes: ¹ Names of vendors on the excluded parties list can be found at <http://www.sam.gov>.

² Any commodities purchased by the district through the TAPS program satisfies the bidding requirements.

³ Used school buses, over two years old as defined in A.C.A. § 6-21-306(a), are exempt from bidding requirements.

⁴ A “sole source justification document” should be attached to the purchase order and maintained in the audit file for all commodities purchased as such. ADE stipulates the following seven criteria which the justification must meet.

- Why the service or product is needed;
- The methods used to determine that a lack of responsible/responsive competition exists for the service or product;

- How it was determined that the provider possesses exclusive capabilities;
- Why the service or product is unique;
- Whether or not there are patent or property rights which make the required service or product unavailable from other sources;
- What the district would do if the provider/service product were no longer available;
- Any program considerations which make the use of a “sole source” critical to the successful completion of the district’s task.

⁵Act 2161 of 2005 specifically states the parameters required within the appeal process.

7.6L—ACTIVITY ACCOUNT

The District shall maintain an account of activity funds. The funds for the account are those revenues derived from the sale of tickets to athletic contests or other school sponsored activities; the sale of food other than that sold in the cafeteria; the sale of soft drinks, school supplies, and books; and fees charged by clubs and organizations.

Activity funds are considered “school funds” and as such may only be spent for school related purposes.¹

The Superintendent shall be the custodian of all activity funds and shall be responsible and accountable for the funds. The Superintendent may appoint a co-custodian for each school in the District who shall also be responsible for the activity funds he/she maintains.

Unless otherwise noted, the principal of each school is the designated co-custodian for the activity funds within that school.

Note: ¹ “School related purposes” has been narrowly interpreted by the courts under Article 14 of the Arkansas Constitution to require the expenditures to be for a legitimate public purpose closely related to the provision of K-12 education.

7.7L—CASH IN CLASSROOMS

No cash or checks are to be left in any classroom overnight. Staff, other than the District treasurer, who collect funds in the course of their employment should deposit the funds daily with the treasurer. Treasurers should deposit daily, unless otherwise directed by the superintendent or business manager.

Notes: Policies 3.47 and 8.39 both require daily deposits with the superintendent or designee determining if the fund collection requires receipts and/or other record keeping requirements. That language is not repeated in this policy, but the reasons for daily deposits are the same as for those policies. Specifically, the goal is to protect both the district and the staff from possible overnight theft which is only covered by insurance if there are receipts to prove the existence of the funds and even then, there is a deductible (often \$1000). It could often be the case that the receipts and the funds would be in the same envelope and be stolen at the same time. Bottom line is that the daily timeline is to protect both the district and the staff.

7.8—PERSONAL PROPERTY

To avoid confusion and the potential for misunderstandings, District staff who bring personal property to school to use in the performance of their jobs should label the items with their names. Any such items should be removed from the school at the close of school each year. The District assumes no responsibility for damage to, or the loss of, personal property brought to District facilities by District staff.

7.9—PROPERTY INSURANCE

The Superintendent shall be responsible, with approval of the Board, for maintaining adequate insurance coverage for all District properties. At a minimum, the District will purchase insurance coverage sufficient to meet the requirements by the Arkansas Commission for Public School Academic Facilities and Transportation.

7.10L—PUBLIC USE OF SCHOOL BUILDINGS

It is the policy of the Board that District school buildings may be used by citizens of the District to conduct lawful meetings for social, civic, or recreational purposes provided such meetings do not interfere with the regular school work. The Superintendent shall be responsible, with Board approval, for establishing procedures governing such use of school buildings. The governing procedures shall be viewpoint neutral. Building principals shall be consulted to determine if there exists any conflict with planned school activities prior to other groups being allowed to use school facilities.

The District shall establish a fee schedule for the use of school facilities. Charges made for the use of school facilities shall reflect the actual costs (e.g. labor, utility, and materials) incurred by the District.

Organizations using school facilities assume full and complete responsibility for the conduct of all persons, regardless of age, associated with their use of the facility while they are in or about the facility. Smoking or the use of tobacco or products containing tobacco in any form or the use of drugs or intoxicants is prohibited. Firearms of any kind are not allowed on school property unless the person carrying the firearm is permitted to do so by law as defined in A.C.A. § 5-73-120.*

Charges shall be made for the use of all buildings which shall be adequate for payment of the custodian, utilities, etc. Charges for the various buildings will be a \$50.00 fee. The fee of \$50.00 will be waived for employees of the Waldron School District. A cleaning deposit of \$50.00 will also be required from anyone who uses the facility, however, the cleaning deposit of \$50.00 will be returned to the user if the user agrees to clean the facility and no damages are made to the facility.

The Middle School Multipurpose Facility is not available for public use, except with direct approval from the Superintendent.

Student or student-oriented organizations shall be exempt from the above charges. The above schedule is for one use only.

There will not be a charge for class reunions if they clean up the facility. If they do not clean up, they will be charged the above rates.

Joint Use Agreement

The Sawyer-Wright Field is available for public use. There will not be a charge for the use of the facility. The community shall only be able to access the stadium field, practice field, track, and stadium seats when not in use by the district.

A formal agreement has been established between the district and Scott County Parks and Recreation to allow the Pee Wee Bulldog Program to use the fields, track, stadium seats, concession stand, press box, restrooms, and parking lots during practices and home games. The Joint Use Agreement between the District and County states that all legal requirements for the use of Sawyer-Wright Field.

Per Joint Use Agreement grant requirements, a policy is to be in place for the “Active Use Areas” identified in the grant application. Sawyer-Wright Field was chosen based on the high use and need by the community.

7.11—USE OF SCHOOL FUNDS FOR NON-SCHOOL RELATED PURPOSES

School funds shall not be used for political, charitable, or humanitarian purposes.

No employee of the District shall use school time, school property, school personnel, or school equipment for the purpose of furthering the interests of any political party, the campaign of any political candidate or the advocacy of any political issue or ballot issue whether partisan or non-partisan. School employees may participate as part of a community organization which is renting a school facility for a political purpose.

Any school employee found guilty or who pleads guilty, or nolo contendere to the use of District funds to support any ballot measure shall be immediately suspended, and recommended for termination by the superintendent.

The Board of Directors is not prohibited from expressing an opinion on a ballot measure through the passage of resolution or proclamation. School employees are allowed to verbally express their views on a ballot measure other than in an attempt to persuade a student to the employee's point of view.

District employees and members of the Board of Directors may incur incidental expenditure of District funds for travel costs when speaking at an event in which a ballot measure is discussed if the subject matter of the speaking engagement is within the scope of the person's official duties and responsibilities.

District funds may be used to disseminate public information at a public speaking engagement. The incidental use of District resources may be used to prepare an analysis of the public information if such information is within the scope of the person's official duties and responsibilities.

7.12L—EXPENSE REIMBURSEMENT

The requirements of this policy shall govern reimbursement for expenses related to travel and/or attendance at conferences and professional development activities incurred by district employees and/or members of the Board of Directors on behalf of the district. Employees are only eligible for reimbursement for travel expenses for travel which has been approved in advance. Original receipts must accompany all requests for reimbursement to the extent that such receipts are customarily available. For a receipt to be valid it should contain the name of the issuing company, the date, and the amount. No cash advances shall be made for travel. Mileage, lodging, and meal expenses will not be reimbursed when incurred for the personal convenience of the employee and not required by the reason for the travel.¹ Reimbursement for travel shall be for the lesser of the cost between travel by air or by car with some consideration allowed for length of time of the method of travel.

To the extent practicable, employees shall have the district pay initial conference and professional development registration fees and associated necessary materials. In the occasional circumstances where this is not practical, the district shall reimburse the employee for such fees if they were authorized in advance and are supported with proper receipts.

The district will not reimburse expenses of any non-school board member or non-employee who accompanies the school board member or employee during his/her school related travel.

Reimbursable Expenses

Mileage that is driven for a district sanctioned purpose in an employee's personal vehicle shall be reimbursed provided appropriate documentation is submitted establishing the date and time, place, and purpose of the travel. Mileage shall be reimbursed at the current rate authorized by the state/IRS² and shall be based on the shortest, most reasonable, route available.

Meals may be reimbursed for travel which necessitates an overnight stay when submitted according to the dictates of this policy. Reimbursement shall be prorated based on the percent of a day the employee is away on travel. For example, if an employee returns from his/her travel in the afternoon, he/she is only eligible for reimbursement for breakfast and lunch expenditures. Meals shall be reimbursed for the actual expense to the extent that they are not lavish and are reasonable based on circumstances.³ Except as otherwise specified by this policy, meals are only reimbursable in conjunction with travel requiring an overnight stay.

Tips paid by a school employee for meals associated with travel as defined in this policy are reimbursable for up to 15% of the cost of the meal provided the employee submits a receipt for the meal as part of an "accountable plan" for reimbursement.⁴ Tips are not allowed if an employee is reimbursed using a "per diem" plan.

Meal expenses incurred by the superintendent or other administrators as necessary, in the performance of their duties when meeting with state officials or consultants may be reimbursed on a prorated, per person basis in line with the mandates of this policy. Such expenses shall only be reimbursed when the expenditure is likely to result in a tangible benefit to the district.

Travel necessitating overnight lodging shall be reimbursed to the extent that it is not lavish and is reasonable based on circumstances of the expenditure. Proper documentation establishing the date and time, place, and purpose of the travel must be submitted along with a receipt for the overnight accommodations. To the extent practicable, employees shall receive assistance from administrators or their designee in arranging travel plans to help keep expenses to a minimum.

Expenses not covered

The district shall not reimburse the following items/categories of expenses.

- Alcoholic beverages;
- Entertainment expenses – including sports or sporting events; pay per view or game expenses at motels;
- Replacement due to loss or theft;
- Discretionary expenses for items such as clothing or gifts;
- Medical expenses incurred while on route to or from or at the destination of the reason for the travel;
- Optional or supplementary insurance obtained by the employee for the period covered during the travel;

Credit Cards

Only those employees specifically issued credit cards to be used in the performance of their jobs to purchase goods, services, or supplies on behalf of the district shall be allowed to use such cards. Employees who incur reimbursable expenses as defined in this policy are expected to pay for them initially by any means they choose and then submit their request for reimbursement. The district assumes no responsibility for the payment of any personal credit card charges incurred by a district employee.

Airport Associated Expenses

Receipts for airport associated expenses are required for reimbursement. All airline flights shall be by coach/economy class. Upon arrival at their destination, employees are expected to take the less expensive option between a taxi and an airport shuttle service to his/her hotel or meeting site. When circumstances dictate that a rental car is necessary and/or the most economical approach to the travel requirements, the least expensive car that will accomplish the job should be rented. The district shall not reimburse for any kind of rental car supplemental insurance.

Notes: The following IRS publications were used in the development of this policy.
15-A, 15-B, 463, 535 and the Fringe Benefit Training Guide

¹ If the Board wishes to list any stipulations on reimbursement for travel made by the superintendent or other administrative personnel, specify the stipulations in this policy. Examples could be that administrators would be reimbursed for reasonable expenses incurred in the

performance of their jobs which benefit the district and that had been pre-approved by their immediate supervisor(s).

Superintendents could be contractually pre-cleared for reimbursement for specified travel purposes (actions required in the performance of their role as district leader and/or spokesperson and which benefit the district), mileage for their personal vehicle driven on district business, etc. If they felt the need, the Board could also periodically review the reimbursement records regarding the Superintendent to verify that they are in line with its intentions. Keep in mind that reimbursable expenses must not be lavish but reasonable based on the circumstances of the expenditure. Reimbursed expenses which exceed this threshold are considered income and must be reported as such to the IRS.

² You are not required to use either the state or the IRS rate, but by referring to a “going rate” it will make changing the rate a non-policy issue. It should be no more than the current rate recognized by the IRS. To find the current rate recognized by the IRS go to www.irs.gov and type in “mileage rates” in the search box. To access the current reimbursement rate for state employees, go to www.arkansas.gov/dfa/accounting.

³Per diem reimbursement rates are established by the IRS and for the purposes of this policy you may use them as either a guide or the gospel for meals, lodging, or both. We have chosen not to stipulate expenditures remain within the per diem rates because so many conferences are at hotels that simply do not fit IRS’s rates. If you choose to limit meal reimbursement to the per diem rates, substitute the following sentence for the one included in the policy. “Meals shall be reimbursed for the actual expense up to the IRS per diem limits.” You can further choose to specify that your reimbursement will be “x” percent per meal (breakfast, lunch and dinner) of the per diem rate. Please note that reimbursed expenditures which are lavish based on the circumstances of the expenditure are considered wages to the extent they are excessive. The language in the policy allows reimbursements for actual expenses (hotel or food) to **not** be taxable income so long as they are not “lavish.” An example of lavish would be if the employee chose to stay in a suite instead of a non-suite room. In the context of conference based travel, the conferences usually have a block of rooms at a special rate. If that option is available and the employee chooses a higher cost room, it would be “lavish.” The following information is provided for your convenience if you choose to limit expenditures to the per diem rates. Reimbursement rates vary and can be determined by going to http://www.gsa.gov/portal/content/104877?utm_source=OGP&utm_medium=print-radio&utm_term=portal/category/21287&utm_campaign=shortcuts.

⁴Act 715 of 2007 allows state employees to be reimbursed for tips for amounts up to 15% of the bill. Page 5 of IRS Publication 463 specifies tips the IRS deems acceptable for certain expenses, but state law can be more restrictive than what IRS permits. Attorney General's Opinion 2012-070 essentially blesses tips up to a 15% cap paid by municipal employees in such a way that it can be construed to also apply to school employees. To be eligible for tip reimbursement, the employee must file for actual expenses (receipts required) and NOT as part of a per diem rate reimbursement.

7.13—MANAGEMENT AND DISPOSAL OF DISTRICT PROPERTY

Definitions

For the purposes of this policy, the following definitions apply:

“Commodities” are all supplies, goods, material, computers, software, machinery and other equipment purchased on behalf of the district having a useful life of more than one year and an acquisition cost of \$1,000 or more per unit.

“Surplus commodities” are those commodities that are no longer needed, obsolete, irreparable, or worn out.

“Real property” is land and whatever is erected or affixed to land, such as structures or buildings.

“Surplus real property” is real property that is not presently needed or foreseen to be needed by the District, and that has been authorized for sale as surplus real property by vote of the School Board.

"Trash" are those items that would otherwise belong to another category of goods or property defined in this policy, but which, due to the property's age or an act of God, have less value than it would cost to repair the item. Examples could include, but are not limited to, fire damage, vehicle accidents, extreme age and/or decline in value of the item.

The District’s purchases of commodities shall be in accordance with Policy 7.5—PURCHASES OF COMMODITIES and, to the extent applicable, the procurement requirements of any granting source of funding used to purchase the commodity. The Superintendent shall develop procedures governing the use, management, and dispersal of commodities. At a minimum, the procedures will cover the following topics.

- labeling all commodities;
- establishing adequate controls to account for their location, custody, and security;
- annually auditing the inventory of commodities and updating a listing of such commodities to reconcile the audit with the district’s inventory records. The audit will be documented and account for any transfer and/or disposal of a commodity.
- Disposing of surplus commodities and surplus real property, whether purchased in whole or in part with federal grant funds or with local funds.

Disposal of Surplus Commodities

The Board of Directors recognizes that commodities sometimes become of no use to the District and thus meet this policy’s definition of surplus commodities.

The Superintendent or designee(s) will determine the objective fair market value of surplus commodities. The District will strive to dispose of surplus commodities at or near their fair market value.¹

The Superintendent may declare surplus any commodity with a fair market value of less than \$1000. Surplus commodities with a fair market value of less than \$1000 will be periodically sold by the most efficient, cost effective means that is likely to result in sales at or near fair market value.

The Superintendent may submit a list of surplus commodities deemed to have a fair market value of \$1,000 or greater to the Board of Directors for authorization to sell such surplus commodities. Once the Board of Directors has authorized the sale of such surplus commodities, the Superintendent or designee(s) may sell that surplus commodity as the need arises. Items with a fair market value of \$1,000 or greater will be sold by the most efficient, cost effective means that is likely to result in sales at or near fair market value. If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near the fair market value without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold commodities may then, at the discretion of the Superintendent, be disposed of as scrap or junk or be donated to appropriate charitable or education related entities. Computer or technology equipment will be cleansed of data prior to disposal.

Disposal of Surplus Real Property

The Board of Directors recognizes that real property it owns sometimes becomes no longer of use to the District and thus meets this policy's definition of surplus real property.

The Superintendent may submit a request to the Board of Directors for authorization to sell surplus real property. Once the Board of Directors has authorized the sale of such surplus real property, the Superintendent or designated individual(s) may sell that surplus real property as the need arises. The Superintendent or designee(s) shall be responsible for getting a determination of the objective fair market value of surplus real property². The district will strive to dispose of surplus items at or near their fair market value. The real property may be listed for sale with a real estate broker, and the Superintendent or designated individual may contract on behalf of the district to pay the usual and customary sales commission for such transactions, upon sale of the property.

If the Superintendent chooses to dispose of the surplus items by bid, the Superintendent or designee(s) may set a minimum or reserve price on any item, and may reject all bids. The Superintendent or designee is authorized to accept the high bid provided the high bid is at or near the fair market value without further Board action unless the high bid comes under the jurisdiction of Arkansas ethics legislation in which case the provisions of A.C.A. §§ 6-24-101–107 would apply.

If attempts at public sales fail to produce any interested buyers or bidders, such remaining unsold real property may then, if agreed to by the Superintendent and Board of Directors, be donated to appropriate education related entities, not-for-profit organizations, or the county/city in accordance with the provisions of state law.³

Items obtained with federal funds shall be handled in accordance with applicable federal regulations, if any.

The disposal of school property must be for the benefit of the school district and consistent with good business principles.

Trash, as defined in this policy, may be disposed of in the most cost efficient or effective method available to the district.

Disposal of Surplus Real Property After Consolidation

Real property of a consolidated school district that is no longer being used for educational purposes and has not been sold, preserved, leased, or donated two (2) years after the effective date of consolidation shall be made available for use by a publicly supported institution of higher education, a technical institute, a community college, a not-for-profit organization, a county, or a city by the Board of Directors for the following purposes:

- Having the real property preserved, improved, upgraded, rehabilitated, or enlarged by the donee;
- Holding of classes by statutorily authorized education related entities; or
- Providing community programs and beneficial educational services, social enrichment programs, or after-school programs.

Notes: ¹ The fair market value (FMV) of items must be established prior to their disposal. The determination of the surplus commodity's value will determine whether the superintendent has to submit it to the board. You need to document how you reached FMV; Digital photos can be very useful, particularly if you decide FMV seems low.

The disposal of items purchased with federal grant funds is governed by the following requirements which are located at 34 CFR 80.32(e).

Disposition. When original or replacement equipment acquired under a grant or subgrant is no longer needed for the original project or program or for other activities currently or previously supported by a Federal agency, disposition of the equipment will be made as follows:

(1) Items of equipment with a current per-unit fair market value of less than \$5,000 may be retained, sold or otherwise disposed of with no further obligation to the awarding agency.

(2) Items of equipment with a current per unit fair market value in excess of \$5,000 may be retained or sold and the awarding agency shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency's share of the equipment.

² The fair market value (FMV) of items must be established prior to their disposal. In the case of real property, this should be established by means of a survey and real estate appraisal by a licensed surveyor and appraiser performed within the preceding six months.

The disposal of real property purchased with federal grant funds is governed by the requirements contained in 34 CFR 80.31 which states in part:

(c) Disposition. When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) Retention of title. Retain title after compensating the awarding agency. The amount paid to the awarding agency will be computed by applying the awarding agency's percentage of participation in the cost of the original purchase to the fair market value of the property. However, in those situations where a grantee or subgrantee is disposing of real property acquired with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.

(2) Sale of property. Sell the property and compensate the awarding agency. The amount due to the awarding agency will be calculated by applying the awarding agency's percentage of participation in the cost of the original purchase to the proceeds of the sale after deduction of any actual and reasonable selling and fixing-up expenses. If the grant is still active, the net proceeds from sale may be offset against the original cost of the property. When a grantee or subgrantee is directed to sell property, sales procedures shall be followed that provide for competition to the extent practicable and result in the highest possible return.

(3) Transfer of title. Transfer title to the awarding agency or to a third-party designated/approved by the awarding agency. The grantee or subgrantee shall be paid an amount calculated by applying the grantee or subgrantee's percentage of participation in the purchase of the real property to the current fair market value of the property.

³ A.C.A. § 6-13-111 and A.C.A. § 6-21-108 are the statutes that cover donating District property. Please keep in mind that selling below Fair Market Value has the same legal connotation as donating. A.C.A. § 6-13-111(c)(d) establish a system for selling district owned real property that fails to draw a buyer at a previously established Fair Market Price. We suggest consulting the statute for assistance in such a situation. A.C.A. § 6-21-108 sets forth additional requirements for consolidated school districts that is included as a separate section at the end of this policy.

7.14—USE OF DISTRICT CELL PHONES AND COMPUTERS

Board members, staff, and students shall not be given cell phones or computers for any purpose other than their specific use associated with school business. School employees who use a school issued cell phones and/or computers for non-school purposes, except as permitted by District policy, shall be subject to discipline, up to and including termination. School employees may be issued District cell phones if their position requires the employee be available at all times for work related emergencies or the employee be available to speak with others on school related business when the employee is away from the office. Employees issued cell phones for such purposes may use the phone for personal use on an “as needed” basis.¹

Students who use a school-issued cell phones and/or computers for non-school purposes, except as permitted by the District’s Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion.

All employees are forbidden from using school-issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including termination.²

Note: ¹ The IRS has changed its position regarding the use of district issued cell phones for personal use for those employees who have a genuine **need** for a cell phone due to their job’s duties. Cell phones **cannot** be issues as a fringe benefit, but only as a “legitimate” need related to their job’s responsibilities. There is no longer a need to keep track of personal calls and claim their value as income. The district has the option of supplying the phone directly to the employee or of reimbursing the employee for the cost of his/her personal phone that is used for both District and personal purposes. Any such reimbursement can only be for the specific employee and not any other individuals associated with that employee’s cell phone plan. There has been no change to the use of school computers for personal purposes. Use of school issued cell phones and/or computers by board members or employees who do not meet the policy’s definition of eligibility for non-school purposes is considered income by the Internal Revenue Service. “Income” in this sense means the fair market value that the individual would have had to pay for the use of the cell phone or computer on the open market. Any board member, or employees who do not meet the policy’s definition of eligibility, who uses a school-issued cell phones and/or computers for non-school purposes should be issued the appropriate IRS form (1099) stating the amount of income they have been paid by the district.

Please be aware that telephone records for both personal and school business calls of any school employee’s district-provided cell phone can be requested and must be disclosed by the school district under the Arkansas Freedom of Information Act.

²This sentence is included because insurance companies have ruled that injuries occurring while driving and talking on school issued cell phones are subject to workers comp awards.

7.15—RECORD RETENTION AND DESTRUCTION

It is necessary to maintain district records in a manner that provides for efficient document storage and retrieval and is conducive to eliminating unnecessary record retention. Due to the variety of records that may need to be retained and accessed, the superintendent shall ensure that all staff receive appropriate training to understand this policy. Staff shall also understand the possible ramifications to the district and/or themselves for failure to properly maintain records and follow the requirements contained in this policy.

Definitions

"Directly or directly interested" (hereinafter "directly") means receiving compensation or other benefits personally or to an individual's household from the person, business, or entity contracting with the District.

"Indirectly or indirectly interested" (hereinafter "indirectly") means that a family member, business, or other entity in which the individual or a family member has a financial interest will receive compensation or benefits.

"Record" is defined for the purposes of this policy, as an item or items, whether electronic or material, that are created by, at the request of, or received by and purposefully retained by a board member, administrator, or employee in the ordinary course of District business. Examples include, but are not limited to:

- Any kind of correspondence;
- Calendars;
- Computer files and documents (which may include drafts);
- Telephone logs;
- Expense records;
- Audio or video recordings that are created for the purpose of monitoring the security of District property or the safety of District students;
- Documentation related to transactions or contracts for:¹
 - Services with Board members, administrators, employees, or members of their families covered under the statutorily defined ethical restrictions associated with a contract for services provided for the District involving a Board member, administrator, or employee who "directly or indirectly" benefits from the contract;
 - An exemption granted by the Arkansas Department of Education (ADE) from the statutorily defined ethical restrictions associated with a contract for employment or for services provided for the District that involves a District administrator, board member, or employee.

The superintendent shall be responsible for establishing a schedule for the routine destruction of district records that accommodates the needs of the district. The schedule shall specify the length of retention for any records not specifically delineated by this policy and be distributed to staff on a need-to-know basis according to their respective employment duties and responsibilities. The schedule should accommodate the need for records to be stored as a blend of printed, bound and electronically recorded (e.g., audio tape, video tape, micro-fiche, computer disk) material. The superintendent or designee shall ensure the effective and efficient securing, cataloging, storing, and appropriate scheduled destruction of all records.

The following records categories shall be retained for the time specified.

Board of Education Minutes – forever

Personnel files – forever

Student files – until the student receives a high school diploma or its equivalent, or is beyond the age of compulsory school attendance²

Student records of attendance/graduation – forever³

Financial Records – five (5) years⁴

Documentation, including letters of approval, related to transactions or contracts for services covered by this policy and Arkansas statutes for Board members or members of their families or for waivers granted to District employees - thirteen years⁵

Employment applications, including applicant lists, applicant interview evaluations, documentation in response to requests for reasons for a failure to be interviewed and/or hired, and hiring determinations - five (5) years⁶

Expenditures made with federal grant monies⁷ – governed by the terms of each grant

Video Surveillance Recordings – the timeline established in Policy 4.48—VIDEO SURVEILLANCE

Emails – whatever the district's policy is on this subject⁸

Documents filed with the IRS, including those required in Policy 7.23-Health Care Coverage and the Affordable Care Act – four (4) years

The superintendent or designee shall be responsible for determining when there is a need to interrupt the routine destruction of records.⁹ When the superintendent or designee makes the decision to cease the routine disposal of records, staff affected by the decision shall be promptly informed of the decision and of the nature of records

that are to be retained. Such records shall be retained until the superintendent or designee has authorized their destruction. Employee training on the district's records retention schedule shall specifically include information on the records that may need to be retained due to pending disciplinary or legal actions which otherwise are subject to routine disposal. If an employee has doubt about the need to retain any record otherwise scheduled for destruction, he/she shall consult with the superintendent or designee prior to destroying such records.¹⁰

The records' storage system devised by the superintendent and designee(s) shall be organized in a manner that enables the efficient retrieval of data and documents. The district shall have adequate backup of critical data which is stored electronically.¹¹ The system shall be communicated to employees in a manner that enables them to understand and follow the system's requirements.

In retaining and destroying records, no employee shall:

- Destroy, alter, mutilate, conceal, cover up, falsify, or make a false entry in any record that may be connected to a disciplinary matter or lawsuit or to a matter within the jurisdiction of a federal or state agency, in violation of federal or state law or regulations.
- Alter, destroy or conceal a document, or attempt to do so, with the intent to impair the document's availability for use in a disciplinary matter, lawsuit or an official proceeding or otherwise obstruct, influence or impede any lawsuit or official proceeding, in violation of federal or state law or regulations.
- Retaliate or discriminate against an employee who refuses to violate this policy or to coerce or threaten an employee to violate this policy.

Failure to follow the requirements set forth in this policy may result in disciplinary action against the employee(s), up to and including termination. The district's board of directors prohibits and will not tolerate any form of reprisal, retaliation or discrimination against any employee who, in good faith, has attempted to comply with this policy.

Notes: ¹While A.C.A. § 6-24-105(b)(1)(A)(i) permits a district to employ a Board member's family member for up to a \$5000 limit during the total tenure of the Board member without the District having to receive waivers for such employment, the need to retain documentation for all compensation exists if for no other reason than to establish when that the limit may be reached.

²These are the records required to be maintained during a student's attendance at your district and must be aligned with Policy 4.38—PERMANENT RECORDS.

³This is limited to the dates a student attended school in your district and if the student earned a diploma. This is information students and adults need from time to time to prove they lived somewhere or to enroll in a college, for security clearances, or for background checks.

⁴This is a suggested length of time. The minimum time your district must keep financial records (specifically original receipts of district expenditures) is until the records have been audited. In setting up your retention schedule, you might consider the warranty and/or depreciation schedule of the items purchased and keep all financial records until, at a minimum, the warranty has expired or the item has been fully depreciated. As with all other retention schedules, relevant data must be retained if there is pending litigation or the likelihood of litigation until the matter is resolved.

⁵A.C.A. § 6-24-115 makes it a criminal act to violate the statutes governing Board member and District employees' ethical behavior. A.C.A. § 5-1-109(c)(2) allows for a public servant to be charged for felonious conduct for up to ten years after the officer leaves office or the violation should have been discovered (whichever comes first), but this can be extended by an additional three years if the individual is out of state for a continuous period under A.C.A. § 5-1-109(g). While employees are not public servants, we chose the simpler position of having the same retention requirements for both Board members and employees.

⁶The requirements contained with A.C.A. § 21-3-302 and 303 necessitate the addition of this record retention category. The five (5) year retention length is not required by statute but is recommended. Any civil suit that would require the documents included in the employment application would be barred after five (5) years by A.C.A. § 16-56-115. Retention for the five years would assure you had the necessary records if a suit was filed during that time.

⁷ We suggest making this determination on a case-by-case basis using the latest of: the terms required by the grant, any related litigation is concluded, the records have been audited, or the 5 year statute of limitations for contracts.

⁸ **Routine** deletion of records, email or other records, is not a problem **so long as** prompt action is taken to stop the deletion relating to matters that common sense and/or previous experience indicates could result in legal and/or disciplinary action. In districts that have routine deletion settings for electronic devices, the person responsible for halting the routine destruction of district records will need to inform the district's Network Administrator (or equivalent) when events trigger the need to retain information that would otherwise be routinely deleted.

⁹ Due to the potential adverse repercussions for the failure to cease the destruction of such records, the person responsible for making a "cessation" decision should be close to the source of the cause precipitating the cessation. When an incident occurs that common sense and/or previous experience indicate could result in legal and/or disciplinary action, the routine destruction of district records relating to the incident must be suspended until such time as the legal or disciplinary action, or the likelihood of such action, has concluded. The Federal Rules of Civil Procedure (FCRP) as amended in December of 2006 specifically require litigants to be able to produce pertinent electronically stored information (ESI). FCRP's Rule 37(f) specifically acknowledges the need for routine deletion of records. The issue becomes one of a "good faith" effort to stop record destruction when necessary. The committee's (responsible for developing the rules) notes on this matter state, "*When a party is under a duty to preserve information because of pending or reasonably anticipated litigation, intervention in the routine operation of an information system is one aspect of what is often called a 'litigation hold.'* Among the factors that bear on a party's good faith in the routine operation of an information system are the steps the party took to comply with a court order in the case or party agreement requiring preservation of specific electronically stored information." Records which cannot be produced in a timely manner and/or have been destroyed when common sense and/or previous experience indicated legal and/or disciplinary action could result can cause the district unnecessary and expensive trouble. Besides the inevitable bad public relations of having destroyed records that, the press will be sure to point out, obviously should have been retained, there can also be significant financial costs and/or penalties for the process of attempting to retrieve the records. ASBA would like to stress that deleting electronic records doesn't really get rid of them until they have been overwritten several times by new entries. The process of getting to the supposedly deleted ESI can be a costly one.

¹⁰ If there is any doubt concerning the need to retain, prudence would dictate retention.

¹¹ While there is a need and/or a place for different formats of document storage/retention (paper, audio tape, video tape, micro-fiche, computer disk), the space required for records storage quickly tilts the equation in favor of electronic methods to the maximum extent possible. The vast majority of documents can be transferred electronically (if created electronically) or scanned into a digital format (if created on paper) and stored on external hard drives, firewalls, servers, tape drives, CDs or DVDs. While this method/process is not free, it can be relatively inexpensive and quite possibly save the district money in the long run when stored records are needed. Consult

with your district's technology person to devise the system that will best meet your district's needs, but here are a few points to consider. 1) When scanning, store the documents as PDFs which uses little memory space. If you do the scanning in an Optical Character Recognition (OCR) format, the final documents can be stored in a data base and searched which can save you many hours and much frustration when you need to retrieve something (which is, after all, the reason for the storage). 2) Make multiple copies of the stored documents on separate external storage devices and store the duplicate devices at separate locations to ensure the survival of at least one copy if there is a fire or natural disaster that destroys one of the storage sites. This should be included as part of the district's Disaster Recovery Plan. 3) It is important to remember that technology gets old and obsolete. This necessitates that you establish a schedule or a trigger for the updating of the stored data/documents that are to be retained for more than 10 years. For example, 5" floppies are nearly extinct. If you had stored any such floppies, it would be necessary to convert them to a more modern storage device. In short, you need to include file format update/upgrades as part of your district's technology plans.

7.16—INFORMATION TECHNOLOGY SECURITY

The superintendent shall be responsible for ensuring the district has the necessary components in place to meet the district's needs and the state's requirements for information technology (IT) security. The district shall appoint an information technology security officer (ISO) who, along with other IT staff, the superintendent and district management appointed by the superintendent shall develop the necessary procedures to create a district-wide information technology security system meeting the requirements of this policy and the standards prescribed by the Arkansas Department of Education.

The IT security system shall contain the necessary components designed to accomplish the following.

Sensitive information shall be protected from improper denial, disclosure, or modification.

Physical access to computer facilities, data rooms, systems, networks and data will be limited to those authorized personnel who require access to perform assigned duties.

Traffic between internal (district) resources and external (Internet) entities will be regulated by network perimeter controls. To the extent technologically feasible, network transmission of sensitive data should enforce encryption.

User access to the district's technology system and its applications shall be based on the least amount of access to data and programs necessary to perform the user's job duties.

Student or financial applications software developed for or by the district will be tested prior to implementation to ensure data security through proper segregation of programs.

Monitoring of internal and external networks and systems will be designed to provide early notification of events and rapid response and recovery from IT related incidents and/or attacks.

Continuity of critical IT services will be ensured through the development of a disaster recovery plan appropriate for the size and complexity of the district's IT operations.

Software protection of servers and workstations will be deployed to identify and eradicate malicious software attacks such as viruses, spyware, and malware.

7.17—FOOD SERVICE PREPAYMENT

The district does not offer credit for food items purchased in the school cafeteria; payment for such items is due at the time the food items are received. Staff, students, or parents choosing to do so may pay weekly or monthly in advance for meals.

Notes: The federal Fair and Accurate Credit Transaction Act of 2007 (15 USC. § 1601 *et seq.*), along with its accompanying regulations (16 CFR 681, effective 5/1/2009), require “creditors” to implement an Identity Theft Protection Program. This is a financial and potentially time-consuming burden that districts can avoid by not having practices deemed to make them “creditors.” This is accomplished by the language in this policy.

Please note that districts cannot withhold wages to cover staff debts without the express, written authorization from the affected employee(s).

This policy is similar to policy 4.51. If you change this policy, please review 4.51 at the same time to ensure applicable consistency between the two.

7.18 – DISPOSAL OF NON-NEGOTIATED CHECKS OR UNCLAIMED PROPERTY

State law specifies how the district is to dispose of retained funds in the form of issued but non-negotiated checks that have been not been presented for payment within one calendar year. The district shall dispose of these retained funds in accordance with the law and remit the amount of all non-negotiated checks to the Unclaimed Property Division of the Arkansas Auditor’s Office.

The district shall make a good faith effort to return physical items that have been left on district property to their rightful owners. When contact information is known for the owner of an item of a non-perishable nature left at the district, the district shall use the information to attempt to contact the owner to inform him/her of the location of the item. Owners of such items shall be given at least three weeks to pick up the item he/she left at the district. If the owner fails to pick up the item within the time allotted, the district may dispose of the item in a manner of its choosing.

The district is under no obligation to retain an abandoned, perishable item left on district property.

Notes: The first paragraph of this policy is short, but it has great importance especially if your district has not been submitting reports as the law requires. Checks are considered to be non-negotiated when they have not been paid by the bank from the school district’s checking account and shown as cleared on the school district’s bank statement. Funds are considered “unclaimed” after a check has been issued and mailed, but is not presented for payment at the bank or appear on the bank statement in the 12 month period after it has been issued. Districts are required to file annual reports by October 31.

The state auditor’s website <http://www.auditor.ar.gov/index.html> has a section that does a good job of explaining the requirements.

7.19—SERVICE ANIMALS IN DISTRICT FACILITIES

In accordance with the provisions of the Americans with Disabilities Act and Arkansas statutes, service dogs and trained miniature horses¹ (hereinafter referred to as *service animals*) are permitted for use by individuals with disabilities on district property and in district facilities provided the individuals and their animals meet the requirements and responsibilities covered in this policy.

When an individual with a disability seeks to bring a service animal into a district facility, the district is entitled to ask the individual if the animal is required because of a disability and what work or task the animal has been trained to perform.² The district is not entitled to ask for documentation that the animal has been properly trained, but the individual bringing the animal into a district facility will be held accountable for the animal's behavior.

Any service animal brought into a district facility by an individual with a disability must have been trained to do work or perform tasks for the individual. The work or tasks performed by the service animal must be directly related to the handler's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do **not** constitute work or tasks for the purposes of this policy; no animal brought solely for any of these reasons shall be permitted on school grounds.³

Individuals with disabilities shall be permitted to be accompanied by their service animals in all areas of a public entity's facilities where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go.

A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control by means of voice control, signals, or other effective means.

A service animal shall be groomed to prevent shedding and dander and shall be kept clean of fleas and ticks.

District staff may ask an individual with a disability to remove a service animal from the premises if:

- (1) The animal is out of control and the animal's handler does not take effective action to control it;
- (2) The animal is not housebroken; or
- (3) Making reasonable accommodations for the service animal's presence would fundamentally alter the nature of the service, program, or activity.

If the district excludes a service animal due to the reasons listed above, the district shall give the individual with a disability the opportunity to participate in the service, program, or activity without having the service animal on the premises.

The District and its staff are not responsible for the care or supervision of a service animal brought onto district property or into district facilities by an individual with a disability. Students with service animals are expected to care for and supervise their animal. In the case of a young child or a student with disabilities who is unable to care for or supervise the service animal, the parent is responsible for providing care and supervision of the animal. Prior to working in the school, any person responsible for providing care and supervision of the animal must go through the same process for background checks as required of all employees of the school system.

The District shall not ask or require an individual with a disability to pay a surcharge, even if people accompanied by pets are required to pay fees, or to comply with other requirements generally not applicable to people without pets.⁴

Notes: ¹ A service dog is any breed unless restricted by a local ordinance. A miniature horse is not one specific breed, but may be one of several breeds, with distinct characteristics that produce animals suited to service animal work. The animals generally range in height from 24 inches to 34 inches measured to the withers, or shoulders, and generally weigh between 70 and 100 pounds. There is a bit more flexibility for Districts in determining if a facility can accommodate a horse than for a dog. Miniature horses are less flexible than dogs and therefore may not fit into smaller spaces as well as a dog. In specific instances when the horse's size poses a legitimate safety hazard, the horse could be prohibited from that specific event or facility. Keep in mind, however, that if a facility could reasonably accommodate a 24" dog, it could likely accommodate a 24" horse.

² Districts are **not** allowed to ask about the nature or extent of a person's disability.

³ This paragraph is optional. The school is not required to allow an individual to bring an animal that is only for crime deterrence, emotional support, or comfort onto school grounds but may do so if it wishes.

⁴ The District can only charge an individual with a disability for damage caused by his or her service animal if it charges other individuals for damages they cause.

7.20 – ELECTRONIC FUND TRANSFERS

District funds shall only be disbursed by the district treasurer upon the receipt of checks or warrants signed by the District Board of Directors' Disbursing Officer and the Superintendent or through the electronic transfer of funds. Any electronic transfer of funds must be initiated by the District and authorized in writing by both the Disbursing Officer of the school district Board of Directors and the Superintendent.

For the purposes of this policy, "initiated by the District" means the District controls both the timing and the amount of the funds transfer.

The district treasurer shall maintain evidence of authority for the disbursement in the form of invoices, payrolls that conform with written contracts on file in his/her office, or other appropriate documentation indicating an authority to disburse District funds.

"Other appropriate documentation" includes one-time, signed authorization for recurring transactions. The Board of Directors Disbursing Officer must pre-authorize the electronic transfer of funds for non-recurring transactions which can be accomplished by a signed authorization or an email authorizing such a disbursement of funds.

7.21—NAMING SCHOOL FACILITIES

Except as otherwise permitted in this policy or Arkansas law, the District shall not name any building, structure, or facility, paid for in whole or in part with District funds, for an individual living at the time of its completion who, in the ten (10) years preceding its construction, was elected, or held, a federal, state, county, or municipal office and received a salary for his/her service.

Exceptions to the preceding paragraph may be made when a building, structure, or facility is constructed through the use of at least 50% private funds or, the name refers to:

1. an individual(s) living at the time of its completion and who has historical significance;
2. an individual who is or has been a prisoner of war; or
3. a living individual who is at least 75 years of age and is retired.

Note: This policy was triggered by Act 1225 of 2013. Prior to the act there were no statutory naming restrictions applicable to school districts. The key language in the new restrictions is the person must be either elected **or** held office **and** received a salary for the office. This would **exempt**, for example, school employees and also school board members, but would **include** the Commissioner of Education, the governor, or a federally appointed judge.

7.22—PRIVATE SPONSORSHIP OF EXTRACURRICULAR EVENTS

The Superintendent, or designee, may negotiate for the private sponsorship of an event to take place during the time allotted for a half-time break of any of the District's interscholastic activities. The amount of time for a half-time break shall not be extended for the event.

The school district shall not discriminate against potential sponsors based on political affiliation, religion, or perceived message. The superintendent, or designee, may decline sponsorship for any of the following reasons:

- The sponsored event would conflict with school or school group presentations;
- The proposed event would be logistically impracticable due to the estimated time, required materials for the event, or for other reasons associated with the implementation of the event;
- The proposed event would make continuation of the interscholastic activity impracticable due to residual mess/trash resulting from the activity; or
- The proposed event would present an unacceptable safety risk to students or viewing audience.

The superintendent's, or designee's, decision to accept or decline the proposed sponsored event shall be final.

Any potential sponsor shall be required to demonstrate proof of an in force, minimum face value one million dollar (\$1,000,000) general liability insurance policy that would cover the event. The sponsor must also agree to indemnify the school against any damages to school property, school employees, students, or bystanders that arise as a result of the sponsored event as well as from any law suits that are filed in response to such damages.

There shall be no live or recorded speech, music, or other media provided by the sponsor used during the sponsored event.¹ A member of the school's administration shall announce the name of the sponsor of the event and shall be present to assist in conducting the event. The school administrator shall be a neutral participant and shall only make content neutral statements during the event. To meet this standard, the administrator shall not promote or act in a manner that creates the appearance, or that could give the impression, that the District sponsors, endorses or otherwise agrees with the product, person/group, or event being promoted by the sponsor. No school employee may act as the representative of a sponsor or wear attire/apparel that is provided by the sponsor or that could be interpreted as promoting the sponsor's interests. Employees or representatives of/affiliated with the sponsor may be present at the event and stand with the member of school administration who is announcing and conducting the event; such employees/representatives of the sponsor may wear clothing identifying them as sponsors of the event.

The superintendent, or designee, shall have the authority to regulate the time, place, and manner of the distribution of promotional materials by the event sponsor. "Promotional materials" includes, but is not limited to, pamphlets, pens/pencils, sports equipment (whether miniature or full sized), or clothing. The event sponsor shall provide the superintendent, or designee, with a complete list of the types of promotional materials the event sponsor intends to distribute at the event so that the superintendent, or designee, may make an informed decision on the time, place, and manner of distribution that would result in the least amount of disturbance with the interscholastic activity.

The superintendent, or designee, should take the following into account when determining the best time, place, and manner of distribution of promotional materials:

- Whether the promotional materials could be a distraction to participants in the interscholastic activity due to the promotional material emitting light or noise;
- Whether the promotional materials have a high possibility of being able to be used against participants of the interscholastic activity to attempt to alter the outcome of the activity;
- The possibility that the promotional materials would be left by recipients to become litter; and
- The possibility that the promotional materials would divert the attention of the audience from the interscholastic activity.

The superintendent, or designee, shall limit the distribution of promotional materials to audience members when they are entering the school building/arena, during the sponsored half-time event, and/or when they are leaving the school building/arena. The superintendent's, or designee's, restrictions on the time, place, and manner of promotional materials shall be final.²

Any funds received through private sponsorship shall be placed in the District's Activity Account. The superintendent, or designee, should follow the policy for receiving public gifts or donations when negotiating the sponsorship amount, as set forth in policy 6.3—Public Gifts and Donations to the Schools.

Notes: ¹ The purpose of the media restriction is to protect the District from First Amendment lawsuits. First, the restriction prevents the District from being sued based on any misperception that the District endorses any perceived message resulting from the provided media. Second, having such a restriction provides the District protection from suits that the District has been limiting, or not limiting, the content of any message. Third, the restriction prevents the creation of an open forum as it does not allow for any input from the community.

² While no law requires time, place, or manner restrictions on the distribution of materials, restrictions that are reasonable are constitutional. The examples in the paragraph are not intended to be exhaustive, but can be used to help you in choosing how best to limit possible interference with the extracurricular event.

7.22F—EVENT SPONSOR AGREEMENT

The Waldron School District (hereafter “District”) and _____ (hereafter “Sponsor”) agree that Sponsor shall be permitted to sponsor an event to take place during the half-time break of the interscholastic activity that is scheduled on _____.

Sponsor promises to pay to District the amount of _____ for the privilege of being announced as the sponsor of the above event.

Sponsor agrees to abide by District’s time, place, and manner restrictions on the distribution of all promotional materials related to the above sponsored event.

Sponsor has provided District proof of an in force, minimum face value one million dollar (\$1,000,000) general liability insurance policy that will cover the above event.

I, _____, acting as a lawful an authorized representative of Sponsor, certify that I have the authority to enter into this agreement, and authorize payment to District. I understand that the half-time event will not be scheduled until this agreement is fully executed and full payment under this agreement has been received by District.

Indemnification Agreement

Sponsor promises to indemnify, hold harmless, and defend District, its agents and employees from any lawsuits, causes of action, claims, liabilities, and damages of any kind or nature, including, but not limited to: attorney’s fees and costs arising from this contract, whether such attorney’s fees and costs are attributable in whole or in part to any act, omission, or negligence of District, it’s agents or employees, and including, but not limited to, any and all lawsuits, causes of action, claims, liabilities and damages, as provided above which District, its agents or employees may sustain by reason of any failure by Sponsor to indemnify as provided herein, or any failure by Sponsor to otherwise perform its obligations pursuant to this Contract, or by reason of the injury to or death of any person or persons or the damage to, loss of use of or destruction of any property resulting from this agreement.

I, _____, acting as a lawful an authorized representative of Sponsor, certify that I have read, understood, and accept the above indemnification agreement.

7.23—HEALTH CARE COVERAGE AND THE AFFORDABLE CARE ACT

Definitions

“Dependant”, for purposes of this policy, means an employee’s child(ren) and/or spouse who are enrolled by the employee in health care coverage through the District’s health care plans.

“Full-time employee”, for purposes of this policy, means an employee in a position¹ requiring on average thirty (30) hours of actual performance per week during the annual school year.

“Responsible individual” means a primary insured employee who, as a parent or spouse, enrolls one or more individual(s) in health care coverage through the District’s health care plans.

"Variable hour employee", for the purposes of this policy, means an individual who has no base minimum number of hours of performance required per week.

Health Insurance Enrollment

All full time District employees are eligible to enroll themselves; their spouse, so long as the spouse is not otherwise eligible for insurance through his/her employer's sponsored plan;² and their child(ren) in one of the insurance plans through the Public School Employee Life and Health Insurance Program (PSELHIP). Variable hour employees are not eligible to enroll in a PSELHIP plan. If a variable hour employee’s measurement period finds that the employee averaged thirty (30) or more hours per week, then the employee is treated as a full time employee rather than a variable hour employee and is eligible for health insurance.³ New full time employees have sixty (60) days following the start date of the employee’s contract to elect to enroll in a PSELHIP plan; all new employees shall be informed in writing of the start date of the employee’s contract and that the employee has sixty (60) days from that date to elect PSELHIP coverage.⁴ Coverage for new employees who choose to enroll in a PSELHIP plan shall take effect on the first of the month following the date on the enrollment application. Coverage shall be in effect until the end of the calendar year. Employees who experience a Qualifying Status Change Event⁵ have sixty (60) days from the date of the Qualifying Status Change Event to file an application to change coverage information. All employees who continue to be eligible may elect to continue coverage and make changes to their PSELHIP plan for the following plan year during the yearly open enrollment period.

The District shall ensure all employees are provided education annually on the advantages and disadvantages of a consumer-driven health plan option and effective strategies of using a Health Savings Account (HSA).⁶ Any employee who enrolls in a PSELIP consumer driven health care plan is required to establish an HSA unless the employee is ineligible for an HSA.

District Contribution to Premiums

At a minimum, the District shall distribute the statutorily required contribution rate to all employees⁷ who are enrolled in one of the PSELHIP plans.

Measurement Method of Employee Hours³

Option 1: The District uses the look-back method for determining if an employee qualifies as a full-time employee.³

Option 2: The District uses the monthly measurement method for determining if an employee qualifies as a full-time employee.³

W-2

For all full-time employees who are enrolled in a PSELHIP plan, the District shall indicate in box twelve (12) of the employee's Form W-2 the cost of the employee's health care coverage by using code "DD".⁸

Statement of Return

The District shall send to each full-time employee a Statement of Return (Statement) regarding the IRS Return⁹ filed on the employee. The Statement shall contain: The District's name, address, and Employer Identification Number (EIN) as well as a copy of the IRS Return filed on the employee. The District shall send a copy of the Statement to the employee on or before January 31 of the calendar year following the calendar year the information in the Statement covers. The District shall send only one Statement to the household of an employee who meets the definition of a responsible individual that will include all requisite information for both the responsible individual and the responsible individual's dependant'(s). The Statement will be mailed to the employee's address on record.

Record Retention

The District shall maintain copies of the Statements sent to employees in accordance with the requirements for documents transmitted to the IRS in Policy 7.15-Record Retention and Destruction.

Notes: This Policy is not intended to provide information on the specifics of the differences between the available PSELHIP plans; such information may be requested from the Employee Benefits Division (EBD).

¹ Although Arkansas's statutory language is "a position", the Fair Labor Standards Act and the Affordable Care Act both state that the determination of total number of hours is based on the specific employee rather than the number of contracts/positions an employee has with the same employer. We believe that the Federal laws allow you to have an employee under separate contracts so long as you combine the number of hours from each contract to reach a total number of hours for that employee.

Example: An employee has two contracts with your district, one for a bus driver and one for a custodian. The bus driver contract is for twenty (20) hours each week and the custodian contract is for fifteen (15) hours each week. The employee is treated as providing thirty-five (35) hours for your district and would be eligible.

² EBD permits an employee to insure his/her spouse through the PSELHIP when the employee's spouse is a state employee or a public school employee.

³ The Missouri School Boards Association has an excellent document containing more information on variable hour employees, selecting a measurement method, and setting up

procedures for calculating hours. The document can be found at <http://arsba.org/home/policy-resources>.

⁴ The start date of the employment contract is important because it triggers the start of the sixty (60) days the employee has to elect coverage. Our understanding is that EBD will use the date the employee

is entered into APSCN to determine the start and end dates of the sixty (60) day period. The date an employee should be entered into APSCN as having been hired is the first date the employee's contract covers; for example:

- 1) The start date for an employee whose contract is from July 1 to June 30 would be July 1 even if the employee is not required to report for duty until a later date.
- 2) The employee has a 190 day contract with a first day of duty of Aug. 7th and runs through May 29th. The start date is August 7th.

Legally, each school district is a separate employer. When people change employment from one district to another district, they are new employees and have two options for maintaining health insurance until coverage begins in the employee's new district:

- A) In order to not have a break in coverage employees can COBRA from the time their previous employment terminates until their new coverage becomes effective.
- B) Employees may buy insurance through the state exchange; such employees might be eligible for a tax credit for the period during which the employee is ineligible to participate in the PSELHIP. This option, however, results in a break in coverage, which restarts the employee's annual deductible and out-of-pocket expenses.

We realize, however, that neither option is universally practiced across Arkansas.

⁵ Qualifying Status Change Events include: change in number of dependents due to birth, adoption, death, or loss of eligibility due to age; change in marital status due to marriage, death, divorce, legal separation, or annulment; change in employment status; and loss or gain of group coverage. EBD requires supporting documentation of the qualifying status change event be attached to the application for a change in coverage.

⁶ A consumer-driven health plan option is a health insurance plan that qualifies as a high deductible health plan. Currently, the PSELHIP plans that qualify as consumer-driven health plans are the Classic and Basic Plans. Districts may satisfy the training requirement by allowing a representative from the EBD's list of approved vendors to speak with the district's employees.

⁷ The amount for the minimum contribution rate is set forth in A.C.A. § 6-17-1117(a)(1)(2).

When a district employee has elected the employee and spouse plan or the family plan and the employee's spouse also works for the district, the employee who is the primary insured individual is the only individual considered to have "elected to participate"; thus, the district is only responsible to pay a contribution rate for one employee rather than for both the employee and spouse.

⁸ This information has no impact on the employee's taxes as the employee portion of the health coverage premium is still excluded from earned income. The inclusion on the Form W-2 is for informational purposes only.

⁹ The IRS Returns are forms published by the IRS to be completed by the employer and returned to IRS. When completed, the Returns cover the individual health care coverage status of the District's full-time employees (and their enrolled dependents) for the previous calendar year. EBD has agreed to complete and file the Returns on behalf of the districts. EBD will send a copy of the Returns to the districts, which are to be distributed as Statements to its employees.
